

WISCONSIN TECHNICAL COLLEGE SYSTEM INTERNATIONAL EDUCATION COMMITTEE

INTERNATIONAL PROFESSIONAL DEVELOPMENT SCHOLARSHIP APPLICATION

The Wisconsin Technical College System International Education Committee provides funding for International Professional Development programs on a competitive basis*. When a study abroad program, language immersion course or an international conference or training in the United States or abroad is used for five-year certification renewal or professional development, a full or part-time staff member may apply for an International Professional Development Scholarship intended to offset the cost of travel. Scholarships of up to \$500.00 for travel are available. *If a study abroad or language immersion credit course is being applied toward salary advancement, an instructor is responsible for all expenses.*

*Scholarship applications are reviewed by the WTCS International Education Committee.

For detailed information regarding your individual five-year certification renewal or salary advancement, please contact the Certification Officer on your campus.

Please respond to the following questions:

1. Describe your current position: administrative responsibilities, courses you teach, or other relevant professional information about yourself.
2. Have you participated in an International Professional Development opportunity in the past 3 years?
3. Describe the international activity you are hoping to participate on (who, what, where, when, why).
4. What do you hope to learn from this International Professional Development opportunity? (Please describe what you expect to gain from the opportunity, for yourself and your college.) e.g. Compare teaching methods or student databases; identify marketing techniques; explore general education requirements; etc.
5. Describe your plans for how your participation will impact the internationalization of your campus, community, or for the Wisconsin Technical College System.
